(Up to 300 words)

The abstract text should be formatted in Times New Roman, 12-point font, with no indentation from the left margin. The paragraph should be single-spaced. Leave an 18-point space after the abstract before starting the biography, which should begin on the same page as the abstract.

The abstract should provide readers with concise information about the content of the article, clearly indicating the main results obtained and the conclusions drawn. It should be suitable for direct inclusion in abstracting services and should not normally exceed 300 words.

Since modern information retrieval systems rely heavily on the content of titles and abstracts to identify relevant articles in literature searches, great care should be taken when constructing both.
